=====

## Kopen National School of Excellence (KONSOE)

The **Kopen National School of Excellence (KONSOE)** has been established as the **seventh National School of Excellence (NSOE)** in the country, specializing in the **STEM (Science, Technology, Engineering, and Mathematics)** curriculum.

The school's establishment was officially declared on **July 18, 2023**, by the late Education Minister, Mr. Jimmy Uguro. It was later formally dedicated to the nation on **July 4, 2025**, by the Honourable Lucas Dawa Dakena, MP, the Education Minister. Now we are a fully operational NSOE.

KONSOE is equipped with a comprehensive boarding facility that accommodates **448 students**. The campus includes **seven newly renovated dormitories** and a **spacious mess hall**, ensuring a high-quality residential and dining environment for its students. We have spacious classrooms and specialised labs, and a STEM lab on the campus.

**Please fill out this form if you are interested in applying for KONSOE**  
(either email or send to the school address given on the letterhead before week 9)
